LAFLEIN.

Thinking a few items from our town might be of interest to your many readers I send you these, but the weather has been so hot for the past week news items are scarce.

I notice a communication in the Banner of July 23 signed "A Voter," that nearly takes my breath.

He first tried to make people believe that a democratic low tariff is the father of hard times, and everything else that is bad, and calls attention to a few articles that have been on the free list for years and under a republican administration times were good and prosperous.

Holy Moses! what gall!

He further says that during Harrison's administration the public debt was reduced \$264,000,000, and under that of Cleveland it was increased \$262,000,000, when he will know that Cleveland left \$150,000,000 surplus in the treasury, which Harrison squandered, and at the termination of his term he and his secretary of the treasury, Mr. Foster, were preparing to do the very same thing! to-wit: Issue bonds. But by the juggling of figures and holding back the pay of employees he managed to pull through and left for Mr. Cleveland's second term a bankrupt treasury. Then the song of that beautiful siren protection, Oh, how they do harp and dote on that old, stale issue, that is relegated to the past! How they do love the poor laboring man! how they do want him protected! It is the same protection the lamb gets from the wolf. If high protection is so good for wage earners how is it that laboring men are growing poorer every year, while the manufacturer is growing richer every year, and the more protection he gets the lower goes the wages of labor.

No I don't think protection protects when a manufacturer can make a reaper, ship it to Norway, pay freight charges and agents and sell the machine for \$10.00 less than he will here to our own farmers. This is where protection comes in. It helps the manufacturer, but not the laborer, and I fail to see what tariff has to do with low prices of farm

products. There is no protection for the poor farmer. Everything has a pull at him, from a republican to a chinch bug. One sucks his crops while the other sucks his pocket. Give the country more money to do business with and we will trade you all the protection you want on what hides, wool, hay, and eggs you may have to sell. Your g. o. p., who demonetized silver and struck down half of our money circulation in 1873 and put 4,000,000 tramps on the road, assisted later on by Grover Cleveland and other British loving Tories, has brought this country to its knees in the very dust of humility, and it is high time for Americans, instead of money changers and British Tories, to rule America. The republican party and the Grover Cleveland wing of the democratic party have become so identified with them that when you pinch one the other will kick.

Now, Voter, don't you just mind about the democratic siren of free silver this year. We have got you where Clem had the mole, and you know it; and Hanna's barrel and Tom Green's candidacy will not check the great silver landslide that is sweeping over the country.

Hurrah for Bryan, free silver and the prosperity of the laboring man. JUMBO.

Philadelphia Times: Possibly it was wise for the Madison Square Garden managers to get indemnity bonds over that coming ratification meeting. Bryan threatens to bring down the house.

PURELY VEGETABLE.

The Cheapest, Purest and Best Family Medicine in the world!
An ESSENTIAL SPECIFIC for all diseases of the Liver, Stomach and Spleen.

Regulate the Liver and prevent CHILLS AND FEVER, MALARIA, COUGHS, BRONCHITIS, COMPLAINTS, RHEUMATISM, JAUNDICE AND NAUSEA.

HAD BREATH!

Nothing is so unpleasant, nothing so common, as bad breath; and in nearly every case it comes from the stomach, and can be so easily corrected if you will take SIMMONS' LIVER REGULATOR. Do not neglect to secure a remedy for this repulsive disorder. It will also improve your appetite, complexion and general health.

PILES!

How many suffer torture day after day, making life a burden and robbing existence of all pleasure, owing to the secret suffering from PILES. Yet relief is ready to the hand of almost any one who will use systematically the remedy that has permanently cured thousands. SIMMONS' LIVER REGULATOR is no drastic violent purge, but a gentle assistant to nature.

CONSTIPATION

SHOULD not be regarded as a trifling ailment—in fact, nature demands the almost regularity of the bowels, and any deviation from this demand paves the way often to serious danger. It is quite as necessary to remove impure accumulations from the bowels as it is to eat or sleep, and so health can be expected where a costive habit of body prevails.

SICK HEADACHE

This distressing affliction occurs most frequently after the disturbance of the stomach, arising from the imperfectly digested contents, causing a severe pain in the head, accompanied with disagreeable nausea, and this constitutes what is popularly known as Sick Headache, for the relief of which take SIMMONS' LIVER REGULATOR OR MEDICINE.
